INDIVIDUAL RESOLUTION SOCIETY PLEDGE

I, _____, a living, self recognized sentient being, agreed to become a member of the INDIVIDUAL RESOLUTION SOCIETY and so state my intent herein:

I pledge that I will educate myself on issues relating to my bank/financial institution debts and/or government agency issues (past or present).

I pledge that I will assist others engaged in solutions for the same issues.

I understand that I am engaged in a Redress of Grievance against government sponsored instrumentality; and I rely on the government’s limitations to protect my personal Right to do so under the First Article in Amendment and Ninth Article in Amendment, invoking reservation of Rights to protect my property against seizures.

I, _____, agree to seek resolution in the Society with others of like mind who apply services and education provided by INDIVIDUAL RESOLUTION SYSTEMS.

I agree that I will hold private all technologies and documents unless released by INDIVIDUAL RESOLUTION SYSTEMS, LLC and/or other entities associated with Individual Resolution Society and its management.

My pledge is based on my acceptance that the concept of bank/financial institution debt solutions in current commercial context is a political issue because government stepped into the bank/financial institution business through bailouts of commercial banks.
